

Soft Landing

The Intercultural Language Course

Let your employees don't just survive
but thrive in their new home !

This program will enable your new employees and their spouses to cope with everyday life as quickly as possible - in terms of language as well as interculturaly.

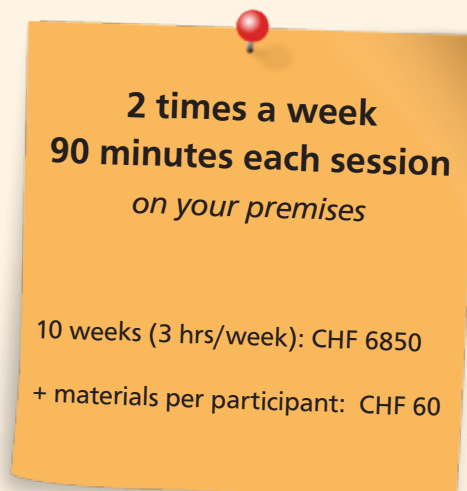

German Survival Course

We will practice everyday situations (meeting people, restaurant scenarios, shopping for food, daily routines, asking for directions) and give plenty of cultural insights and local tips.

Our course books are embedded in Zug and Zürich - participants can apply language in relevant context. The books contain a self study guide in English so they can be easily used even after the course.

The entire course will be held in English.

- no restriction in group size
- Modular course (no problem if the participant misses one session)
- Cope with German everyday situations
- Learn handy Swiss German expressions
- Get a headstart into German by showing how much you can already take over from your mother tongue.

Come see what we are all about! Join us at our language event!
